ONLY OBSCURED BY GREATER AFFAIRS

Activities of Militant Suffragettes Have Not Ceased.

THEIR CAMPAIGN GROWING FIERCER

In Past Week Fight Has Been Waged Against Post-Office, Boxes Being Filled With Varnish and Letters Destroyed-No Big Organized Orgies.

(Special Cable to The Times-Dispatch.) London, November 16 .- Matters of great and universal interest, such as the Balkan war, and others of sudden and startling appeal, such as Wednesday's and Thursday's scenes in the House of Commons, are always apt temporarily to hide away the movements of a lower growth As far as the notice taken by the press is con-cerned, the suffragists might be ments of a lower growth As lar at the notice taken by the press is concerned, the suffragists might be imagined to have retired from the arena. But to imagine this would be a great mistake. They have never been more active and have never worked and organized harder than in the last few weeks. There have been no big organized orgies such as window-smashing and other outrages, but the militant all over the kingdom are keeping their hands in. At a big mass-meeting in Victoria Park on Sunday, which had been practically inneticed by the press. Mrs. Drummond, one of the chief militant leaders, advocated violence with utmost energy.

"Destruction of property will be a particular job' in the future," she declared, and the great crowd was with her.

During the past week in all parts During the past week in all parts of the kingdom especially in London. Birmingham and Dublin, the militants have pursued a relentless campalgn against the post-office. Pitlar boxes by the score have been filled with varnish and some sticky black fluid, which rendered hundreds of envelopes lilegible, and has given the general post-office endees treuble in deciphering the others.

Can't Get Hearing.

John Burns, the president of the local government board, at a non-political meeting in his own constituency in Battersea, was practically unable to get a hearing, and had to suspend the proceedings for twenty min-

pend the proceedings for twenty min-utes while be personally superintendutes while he personally superintena-ed the police who were throwing out men and women suffragists. Even then he gould not carry on the opening, ceremony of a harmless flower show. George Lansbury, a prominent Labor member of Parliament, has resigned omley division in order to fight in his seat in the House, and will rec

he constituency as a pure suffra-ist candidate.

The current number of Suffragette shows a collection is being made of 250,000 pounds, sterling, and the fund now totals 137,000 pounds, sterring, while the local reports asver noticed in the daily press, show that early thusiastic meetings are held daily all over the country. At all these meetings funds, big and small, come in tant suffragists at Albert Hall gathred an enthusiastic assembly of ered an enthusiastic assembly of more than 10,000 persons, and more than \$25,006 was collected on the spot. Mrs. Fawcett, a suffragist fighter for fore than twenty years, presided, and Lord Robert Cecil made a strong and impassioned speech, but no London paper gave more than a few lines to the meeting and some did not notice it. paper gave more than a few times the meeting, and some did not notice it at all, though a little sporadic window breaking on quite a small scale, which occurred on the same day, secured a fair amount of publicity, a fact which

satisfied customer tells their friends, which acts as an endless chain, bringing a constant stream of people to the store. Mail and telephone orders given special attention.

fair amount of publicity, a fact which the militants have been using since to justify their policy of violence.

No, it must not be thought that because the suffragists, both militant and law-abiding, recently did not secure much gublic notice that they have ceased from making trauble. It will be strange if the militants do not break out again very soon.

The Pankhurat organ, Suffragette, this week has for its front page an editorial modern have brightened up a bit. The moderns have brightened up a bit. The idea of freedom non is only diverce or the failure of love. That being we and 10,000 times more common, they cannot grap yet. For the present is only diverce on a high buff of the failure of love. That being the proper was a built by James Ruffin is 1781, and is very large and room, with massive four dailed with a weatherboarding is filled with a super surface of the whole Christian populac

the slav armies has caused Austria and Germany "seriously to think" in view of the enormous Slav population of Austria-Hungary. The overwhelming victories of their brother Slavs has been a wave of exuitation aweeping cover the Slavs of Austria-Hungary with that Augustiae Washington may have inscription "Principle, 1754," it is probled that Augustiae Washington may have inscription "Principle, 1754," it is probled that Augustiae Washington may have inscription "Principle, 1754," it is probled that Augustiae Washington may have inscription "Principle, 1754," it is probled that augustiae Washington may have inscription "Principle, 1754," it is probled that augustiae Washington may have inscription "Principle, 1754," it is probled that augustiae Washington may have indied this very plece. There are on the test for the Fusion of a much older house, one the bricks of which has been preserved as and even to the Prussian Poles. There are indied to the Balkan victories, equaling and sometimes exceeding the enchusiant of the colony. These bricks were of gazed variety and of a pecusar color of the service were surrounded by tarones, or Slavs, and thousands of dollars were collected for the Servian Red Cross, Also manifesture were issued, a typical one being as follows:

"Hasten to their victories of their victories, equaling and sometimes exceeding the enchusiant of the colony. These bricks were of gazed to the Balkan victories, equaling and sometimes exceeding the enchusiant of slavs, and thousands of dollars were collected for the Servian Red Cross, Also manifesture were issued, a typical one being as follows:
